

PRODUCT INFORMATION SHEET

GYS 100R-C INVERTER SPOT WELDER

DESCRIPTION:

Ideal machine for all spot welding all types of steel

- Lightweight and easy to handle: Weight: 4kg with C1Arm
- Single-sided welding gun with 3 metre cable: stud/rivet/ring welding, carbon shrinking
- Accessory box
- Support cable bracket with a telescopic arm
- 6" Control display

PERFORMANCE:

Welding current:

- High welding current 10,000Amps
- Digital display of the actual current value
- Sound alert if the welding current is too low
- Constant current control

Electrode force:

- Electrode force control
- Digital display of the actual electrode arms force
- High clamping force: 300 daN with 7 bar
- Sound alter if the actual clamp force is too low

MACHINE INTERFACE:

- User friendly: Large display with intuitive menu
- Saving of user welding parameters
- Easy: Only 2 parameters to be selected (thickness & steel sheet type)

TRACEABILITY:

- Record on SD card of the characteristics of each spot weld performed
- Restoration on any PC of the reports saved on the SD card
