

PRODUCT INFORMATION SHEET

GYS BP.LCX AUTO INVERTER SPOT WELDER

Fully Automatic Function C Gun

On Automatic mode the C gun will adjust all welding parameters, including Welding Current, Squeezing Force (daN), no matter what the steel type or thickness

DESCRIPTION:

Ideal X & C clamps for all types of metal works
Lightweight and easy to handle X & C clamps: Weight : 5kg
Single-sided welding tool with 3 metre cable: spot hammer welding, stud/ rivet/ring welding, carbon shrinking
Accessory box
Support cable bracket with a telescopic arm
150mm Control display
Remote control on both double side guns

PERFORMANCE:

Welding current:

High welding current 13,000Amps
Digital display of the actual current value
Sound alter if the welding current is too low
Constant current control

Electrode force:

Electrode force control
Digital display of the actual electrode arms force
C clamp electrode force: 550 daN with 8 bars
X clamp electrode force: 550 daN with arms 120mm at 8 bars
Sound alert if the actual clamp force is too low

MACHINE INTERFACE:

User friendly: Large display with intuitive menus
Saving of user welding parameters

REPORTING:

Record on SD card of the characteristics of each spot weld performed
Restoration on any PC of the reports saved on the SD card

Comes Complete with 10 Sets of Arms
