

PRODUCT INFORMATION SHEET

GYS COMBI 230 DENT REPAIR SYSTEM

The GYS Combi 230 Dent Repair System is a complete dent pulling kit, essential for repairing small, medium and big dents of steel and aluminium panels (rocker panel, wheelhouse, car fender...).

The GYS Combi 230 Dent Repair System contains a steel dent puller (current max. 3 500A) and an Aluminium panels dent puller for welding M4 nuts with capacitors discharge. Current 3 500 A, cable length 2.5 m, multi function gun for welding of screws, rings, rivets and washers. Percussion extractor with stars for straightening. Accessory box.

Thanks to the GYS Combi 230 you can:

- Remove dents without disassembling
- Repair without replacing
- Reduce the down- time
